

# Here's an idea!

Make your own Recycle Guy or Gal. Ask your parent(s) for items you can use: cans, bottles, string, straws, buttons, unwanted CDs, food containers, paper or toilet paper tubes, crayons, cereal boxes, glue sticks, and cardboard boxes. Use your imagination!

Here's another idea...ask members of your club to create a Recycle Guy or Girl too. Have the 4-H members bring them to a 4-H club meeting. Then find a place in your city or town where all the Recycle Guys and Gals can be put on display along with a message to remind people in your community how important it is to recycle!

The University of Minnesota Extension is committed to the policy that all persons shall have equal access to its programs, facilities, and employment without regard to race, color, creed, religion, national origin, sex, age, marital status, disability, public assistance status, veteran status, or sexual orientation. # Where are the items hidden in "Eye Spy"?

Heart is on the end of a can on the floor, ring is on top of the CD pile, face is in the shrub, tack is on top of a paper roll by the little Clover Kid, spring is in the tree, peanut is on top of buttons, mini football is part of the scissors on the counter, star is on the Recycling Guy, yoyo is part of a truck tire and the snake is on the Recycling Guy-part of the hanging strings.

# Match game, where do the items go for recycling?

Metal-pop and soup cans, glass-jars, plastic-milk jug and liter pop bottle, paper-newspaper, magazine, old mail and paper, cardboard-box.

# Some useful kid-friendly recycling sources: BOOKS:

<u>The Paperbag Prince</u>, by Colin Thompson; <u>Stuff!: Reduce, Reuse,</u> <u>Recycle</u>, by Steven Kroll; <u>We Are Extremely Very Good Recyclers</u>, by Lauren Child, Bridget Hurst, Tiger Aspect Productions Staff; <u>Make It!</u> by Jane Bull; <u>Earth-Friendly Crafts:</u> <u>Clever Ways to Reuse Everyday</u> <u>Items</u> by Kathy Ross; Making a Difference Series: <u>Reusing Things</u>, <u>Respecting Our World</u>, <u>Reducing Garbage</u>, and <u>Recycling Materials</u> by Sue Barraclough.

**<u>Thanks</u>** to the following people for their help and insight in producing this issue: Diane Stark-Children's Librarian, Patricia Morreim and Cindy DeRuyter, Recycling Coordinator, Andover.

# Activity pages for young 4-H members

- Note to Parents -

In the future our youth will inherit the world from today's adults. But what kind of world will it be?

Our youth can learn how to care for the earth by the examples of those around them...how to decide what to buy, understanding the difference between a need and a want. They can learn how to take care of the of what they have, how to disburse items no longer wanted or used (**recycle**), and how to use items over and over (**reuse, renew**). As a family you can do these things together.

You have tremendous opportunities to teach your children how to make decisions and develop behaviors so they will use their resources wisely and help care for the earth.

We hope this newsletter will serve as a starting point for your family to have meaningful discussions on how to recycle, reuse and renew!

Clever Clover
