

Passport to the **University of Connecticut**

4-H is the youth development organization of UConn Extension. As part of the University of Connecticut, 4-H has access to research-based information needed to help youth reach their full potential. The mission of 4-H is to assist all youth ages 7-18 in acquiring knowledge, developing life skills and forming attitudes which will enable them to become self-directing, productive and contributing members of society. This mission is carried out through the involvement of 4-H staff, volunteers, parents and other adults who organize and conduct fun educational experiences in community settings.
