

# UConn 4-H Fact Sheet

## 4-H County Fairs

The purpose of the County 4-H Fairs in Connecticut is as follows:

1. To provide a way to have each 4-H member present their project for the year, have it evaluated and receive recognition.
  2. To provide opportunities for youth to learn and practice leadership skills by planning, conducting and evaluating the "county" 4-H Fair under the guidance of trained volunteer adult mentors and UConn 4-H Extension Staff members
  3. To provide a showcase of the 4-H Program for the general public.
- County 4-H Fairs in Connecticut are open to any properly enrolled UConn 4-H youth. For animal projects, youth must have also submitted animal project verification forms for their projects by the required dates for their species for their county of enrollment.
  - Project animals are not required to be purebred and/or registered in a breed organization.
  - Sanctioned shows of any purebred species are not allowed to be held at any County 4-H Fair held in Connecticut.
  - Ages for Juniors will be 7 to 12 (as of January 1st) and Seniors will be 13 to 18.
  - Explorers are encouraged to enter in the explorer displays category only.
  - Adult intervention during the fair is not allowed for handling, fitting or working directly with animals. However, adults are allowed to supervise project animals for safety of both animals and youth.

- All projects entered and submitted at the fair will be evaluated using the Danish system of awarding ribbons. In this system, the judges do not judge one person's work by comparing it to another's. The evaluation is made against a standard. A judge looks to see whether requirements are met. Often a score sheet is used, available from the county 4-H office. If the work meets high standards, it receives an excellent rating and blue ribbon (score of 90 to 100). A red ribbon signifies very good work (score of 80-89). A white ribbon signifies work meets standards well enough to be shown, but is only fair quality (score below 80). One advantage of this system is that everyone whose work fulfills minimum qualification can receive a ribbon. If all entries are judged to be excellent, all receive blue ribbons. The purpose of using the Danish judging system is to give every 4-H member the recognition deserved for the work that was done. It also helps young people recognize the need to improve their skills and to "make the best better."
- 4-H members are expected to enter and exhibit their projects in their primary county they are enrolled in. However, if their primary county fair does not offer a show for their project, they are allowed to enter and exhibit their project at another county fair with permission from the UConn 4-H Coordinator without any penalty.
- If a member is not able to attend and exhibit at their county fair, they can request permission from both county educators to show at another county. However, they would not be eligible for any championship or be allowed to participate in the premier showmanship contest.
- A project may only be exhibited at the county 4-H fair that the project is registered in, unless another counties 4-H fair class is open to UConn 4-H members statewide, and the project meets the fair's requirements.

## ABOUT UConn 4-H

UConn 4-H Youth Development serves more than 20,000 Connecticut young people, aged 5 to 19, each year as the youth education program of UConn Extension. 4-H provides non-formal, out of and in-school community-based learning to all 169 cities and towns in the state. Programs are made accessible to youth through the leadership and support of adult volunteers. These volunteers offer learning opportunities that are age-appropriate, experiential/hands-on, and are focused on developing life-skills and open to all youth regardless of geography, ethnicity and ability.

## PUBLIC PRIVATE PARTNERSHIP

4-H is led by a unique public-private partnership of the Cooperative Extension System, land-grant universities, federal, state and local government agencies, and foundations. 4-H National Headquarters NIFA provides national program leadership to identify, develop and manage high quality youth development programs, through the extension land-grant system for 4-H.

NIFA helps Cooperative Extension System and land-grant universities take research-based knowledge and expertise to identify and address current issues/problems facing youth in rural, suburban and urban communities. National 4-H Council is the private sector, non-profit partner of 4-H at all levels - national, state and local. National 4-H Council works to build stronger 4-H Programs through national fundraising support, marketing and brand management.
